

# Water-level Changes, January 1993 to January 2000

Base from U.S. Geological Survey digital data, 1:100,000, 1983  
 Universal Transverse Mercator Projection, Zone 14

## EXPLANATION

- |   |  |   |   |
|---|--|---|---|
|  | <b>Water-level change study area</b>   |                    | <b>Equus beds historic observation well</b> |
| <b>Area of water-level recovery between:</b>  |  | Water-level measurements were made by city of Wichita personnel                                       |   |
|  | 10 and 20 feet   | Recovery of storage volume in study area between January 1993 and January 2000 was 129,000 acre-feet. |   |
|  | 20 and 30 feet   |   |   |
|  | <b>+10—</b> Line of equal water-level change—Interval 2 feet.<br>Dashed where approximately located. |   |   |
