

Table 30. Maximum stages and discharges prior to and during October 9–10, 1992, in South Carolina

[mi², square miles; ft, feet above arbitrary datum; ft³/s, cubic feet per second; >, greater than; --, not available. Source: Recurrence intervals calculated from U.S. Geological Survey data. Other data are from U. S. Geological Survey reports or data bases]

Site no. (fig. 49)	Station no.	Stream and place of determination	Drainage area (mi ²)	Maximum prior to October 1992				Maximum during October 9–10, 1992			
				Period	Date (month/day/year)	Stage (ft)	Discharge (ft ³ /s)	Day	Stage (ft)	Discharge (ft ³ /s)	Discharge recurrence interval (years)
Salkehatchie River Basin											
1	02175450	Savannah Creek near Ehrhardt, SC	12.4	1964–74, 1975–93	03/13/80	8.30	895	9	9.33	1,200	>100
2	02175500	Salkehatchie River near Miley, SC	341	1951–93	03/13/80	5.44	3,300	9	5.79	4,360	100
3	--	Cope Creek at State Secondary Road 13 near Miley, SC	12.8	--	--	--	--	9	--	2,330	>100
4	--	Whippy Swamp at State Secondary Road 13 near Miley, SC	134	--	--	--	--	9	--	10,100	>100
Coosawhatchie River Basin											
5	--	Coosawhatchie River at State Secondary Road 47 near Allendale, SC	10.5	--	--	--	--	9	--	1,100	60
6	--	Coosawhatchie River at State Secondary Road 21 near Fairfax, SC	48.1	--	--	--	--	9	--	¹ 11,900	>100

Table 30. Maximum stages and discharges prior to and during October 9–10, 1992, in South Carolina—Continued

Site no. (fig. 49)	Station no.	Stream and place of determination	Drainage area (mi ²)	Maximum prior to October 1992				Maximum during October 9–10, 1992			
				Period	Date (month/day/year)	Stage (ft)	Discharge (ft ³ /s)	Day	Stage (ft)	Discharge (ft ³ /s)	Discharge recurrence interval (years)
Coosawhatchie River Basin—Continued											
7	02176500	Coosawhatchie River near Hampton, SC	203	1951–93	09/02/69	8.39	8,160	10	7.92	8,820	>100
8	--	Coosawhatchie River at State Secondary Road 36 near Early Branch, SC	382	--	--	--	--	10	--	14,100	>100
Savannah River Basin											
9	--	Gaul Creek at State Secondary Road 107 near Allendale, SC	8.5	--	--	--	--	9	--	2,240	>100
10	--	Gaul Creek at State Highway 3 near Allendale, SC	17.9	--	--	--	--	9	--	4,320	>100
11	--	King Creek at State Highway 3 near Allendale, SC	17.9	--	--	--	--	9	--	1,560	70

¹Flooding was greatly increased by flow from a breached dam on a 60-acre pond on a tributary just upstream from the streamflow-gaging station.
