

Water-level Changes, August 1940 to October 1997

Base from U.S. Geological Survey digital data, 1:100,000, 1983
 Universal Transverse Mercator Projection, Zone 14

EXPLANATION

- Water-level change study area
 - Area of water-level declines between:
 - 10 and 20 feet
 - 20 and 30 feet
 - 10- Line of equal water-level change. Interval 2 feet. Dashed where approximately located.
 - Artificial recharge demonstration site— Halstead site in operation May 1997– June 2002
 - Equus beds historic observation well
- Water-level measurements were made by city of Wichita personnel
- Depletion of storage volume in study area between August 1940 and October 1997 was 186,000 acre-feet.
